8. Percentage of concerns about charities resolved within 9 months	↓	88%	94%	90%	↑ 91%	89%

What do these figures show?

Registration

1. The number of bodies granted charitable status and added to the Scottish Charity Register and the number of these that are Scottish Charitable Incorporated Organisations (SCIOs).
2. How long the status application process has taken on average, from start to finish (this includes time with the applicant as well as time with OSCR).

Charities and OSCR Online

3. The number of charities that have come off the Scottish Charity Register. This includes voluntary removals and charities found to no longer meet the charity test, including removals resulting from our search processes finding a charity no longer to be active.
4. The percentage of charities that have an OSCR online user account, shown as a proportion of all Scottish Charities.

Annual returns and Accounts

5. The number of charities on the Scottish Charity Register that have provided a web link to their published accounts.
6. The number of returns where annual reports and accounts that have been redacted and published on the Scottish Charity Register.

Concerns about charities

7. This includes concerns from the public and referrals from other Regulators.
8. How quickly OSCR is able to close an inquiry - including making recommendations to be adopted by the charity. Our performance indicator is 75% to be resolved within 9 months.

The arrows draw attention to general trends over the last few months, or when compared to the previous year. Where N/A is stated this indicates either a new performance indicator where no previous comparator is available; or a change in the way the indicator has been calculated making it no longer accurate to compare with previous figures.

*We have revised the figures for annual reports and accounts published for April and May. Figures now show the number of charity annual returns submitted where annual reports and accounts have been published. Previous figures may have counted multiple documents published for each return submitted for some charities.
